This sound pack was founded with the goal of giving accessible studio quality NSFW SFX to **all content creators at no cost.** We only **require** you to attribute/credit usage of the pack. We rely on all creators to promote our contributors. In return you are free to use audio on any legally permitted medium, including but not limited to: videos, games, erotic stories, modding, Virt-A-Mate and many more! All audio released is directly sourced from respective sound engineers to insure that audio can be used in any works whether commercial or otherwise.

If you appreciate what we are doing or we had a positive outcome on your work, please consider making a [DONATION](#). All of our audio must be sourced from creators/vocalist for usage in pack which often means funding. Then every piece

of audio we release must be processed manually in order to be as high quality as possible.

If you are a voice actor, foley artist, etc. and want to be involved in the pack please [fill out this form](#). We hope that you view being part of the pack as a form of collaboration on a larger scale. We will do our best to make sure that creators promote pack contributors and will do our best to highlight your works in a way that we hope proves beneficial. If you have any questions please contact [@OpenNSWSP](#).
